EDUCATION

10 WEEK WEB DEVELOPMENT BOOTCAMP

Le Wagon, Melbourne, VIC
Oct 2022 - Dec 2022

ACCA

Association of Chartered
Certified Accountants
2016 - 2022

1ST CLASS BA (HONS) ACCOUNTING & FINANCE

University of Strathclyde,
Glasgow, UK
2011 - 2015

PROFILE

Passionate self-starter with 5+ years of experience as a Chartered Accountant, delivering optimised process automations at a large, fast-paced retailer utilising MS Excel's Visual Basic for Applications (VBA). One example of VBA code written for automation purposes resulted in 6 days per month being saved in group financial reporting.

Looking to utilise the tech skills learned during a web development bootcamp along with communication, problem solving and analytical skills to succeed as a full stack developer.

PROJECTS

ROCK, PAPER, SCISSORS [Github](#) | [Homepage](#) | Jan 23

- Rock, paper, scissors game.
- Skills used: React, Javascript, HTML, CSS.

GROUPAPPO [Github](#) | [Homepage](#) | Dec 22

- Skills used: Ruby on Rails, HTML, CSS, Bootstrap, Javascript, Stimulus, MVC, Action Cable, APIs, Heroku.

BOOKAPPO [Github](#) | [Homepage](#) | Nov 22

- Marketplace app for bike rental & accessories, hosted on Heroku.
- Skills used: Ruby on Rails, HTML, Bootstrap, Javascript, Heroku.

PROFESSIONAL EXPERIENCE

GROUP ACCOUNTANT

Arnold Clark Automobiles, Glasgow, UK | 2016 - 2022

Key Achievements

- Shortened the month end group reporting process from 8 working days to 2 working days using VBA code for automation, saving resources and leading to faster and more informed decision making for executives.
- Developed, tested and managed a project to migrate company financials from MS Access to SQL. This strengthened data security and improved department reporting processes.
- Chosen to review procedures at a key branch. VBA code developed over 2 weeks resulted in a combined saving of 4 days per week for their finance team.
- Controlled the monthly management accounting process - responsible for consolidating, reviewing and signing off on 160+ branch management accounts to ensure accuracy for group reporting.

FREELANCE WORK - VBA AUTOMATION

Ooni Pizza Ovens, Remote | Jun 2022 - Aug 2022

Key Achievements

- Produced 15 MS Excel models using VBA code which drastically improved delivery time on company reporting and improved data reliability. Automation saved the finance team 25 hours per month.
